

Kiyoshi Eguchi

Executive Officer (Railways)

Deputy General Manager, Transportation Business Unit

General Manager, Expo Transportation Management Center

General Manager, Safety Management Division

Osaka Metro Co., Ltd. (Osaka Metro)

Mr. Kiyoshi Eguchi serves as an Executive Officer (Railways) and as Deputy General Manager of the Transportation Business Unit at Osaka Metro Co., Ltd.

After graduating from the Faculty of Engineering at Hiroshima University, he joined the Osaka City Government in 1990. He has been working as a railway civil engineering specialist for approximately 35 years, including his career at the Osaka Municipal Transportation Bureau—the predecessor of Osaka Metro. He has been engaged in planning new subway lines and in management duties related to the construction, renovation, and maintenance of railway civil engineering facilities, as well as conducting internal safety audits as a safety officer.

Mr. Eguchi's major career posts include Manager of the Safety Audit Section, Manager of the Track Management Section, General Manager of the Facility Engineering & Construction Division, and General Manager of the Traffic Planning Division. He assumed his current position in April 2023.

Mr. Eguchi now concurrently serves as General Manager of the Expo Transportation Management Center and General Manager of the Safety Management Division for EXPO 2025 OSAKA, KANSAI, JAPAN. He was responsible for railway transportation, the main access to the Expo venue.
