
Scott J. McCormick

President

Connected Vehicle Trade Association (CVTA)

Mr. McCormick is President of the Connected Vehicle Trade Association. Previously, he was the Executive Director of the Automotive Multimedia Interface Collaboration, a nonprofit research organization of the world's largest automakers. Prior to these positions, he was General Electric's Factory with a Future Program Manager for both Transportation and Aircraft Engine Business Divisions, implementing over \$1 billion in advanced automation and systems.

Mr. McCormick is a former Adviser to the U.S. National Science Foundation and the Industrial Sector Representative to the U.S. Federal Laboratories Technology Transfer Consortium. He is the founder and Chairman of the International Automotive Standards Organization and the former Strategic Advisor to the United Nation's International Telecommunications Union Advisory Panel on Communication Standards to Vehicles. Mr. McCormick is a member of the U.S. International Standards Organization Technical Advisory Group. He co-founded and Chairs the Global Telematics Forum with trade associations from Europe, Korea, Australia, Taiwan, and China. He serves as a Member of the Steering Committee to the Joint Commercial–Military Intelligent Transportation Systems Summit and as Industry Representative for CVTA to the U.S. Congressional ITS Caucus' Industry Advisory Board. He is a member of the Advisory Board of the University of California, Berkeley's Transportation Sustainability Research Center (TSRC) .

Mr. McCormick has degrees in Mechanical and Aerospace Engineering, a Master of Business Administration degree, and Doctoral Research in Artificial Intelligence.
