

Conan Cheung

Chief Operations Officer, LA Metro

Conan Cheung serves as LA Metro's Chief Operations Officer. In this capacity, he is responsible for the operations and maintenance of the Metro bus and rail system, Express Lanes, Metro Micro, bikeshare and vanpool. He also oversees capital project start up, resource and service planning, scheduling, operations ITS and highway programs. Mr. Cheung previously served as the Executive Officer of Finance and Budget and the Senior Executive Officer of Service Development, Scheduling, and Analysis. Prior to Metro, he was the Director of Planning and Scheduling with San Diego Metropolitan Transit System and also worked in the San Francisco Bay Area for various transportation planning organizations. Mr. Cheung received a Bachelor of Science in Urban Planning and Public Administration from the University of Southern California (USC), and a Master of Arts in Urban Planning from University of California, Los Angeles (UCLA).
