

Masayoshi Uemura

Senior Managing Director (Urban Transportation Business), Hankyu Corporation

Mr. Masayoshi Uemura is the Senior Managing Director (Urban Transportation Business), at Hankyu Corporation. He oversees the urban railway operation at Hankyu in Kyoto-Osaka-Kobe area. He is also responsible for the operation of the Hankyu Group's transportation business, which includes Kita-Osaka Kyuko Railway, Hankyu Bus, and Nose Electric Railway.

Since joining the Hankyu Corporation in 1985, he has continuously worked in the field of urban transportation. He has contributed to the enhancement of railway service performance through the development of urban railway projects, for example, new railway station installment, railway track elevation and, new railway line planning (Naniwa Suji Connection Line, Shin-Osaka Connection Line, etc.) in Kansai area.

He is a graduate from the Kyoto University and holds a Master of Transportation Civil Engineering.
